HIMANSHI BIRLA

ASSOCIATE MANAGER- DATA ENGINEERING (AZURE CLOUD)

8800377188
birla.himanshi@gmail.com
Noida, Uttar Pradesh

PROFESSIONAL OVERVIEW

Result-driven Cloud / Big Data professional with 15 years of IT experience, specialized in large-scale data engineering across Telecom, Healthcare, and Financial Services domains. Proven expertise in Databricks, PySpark, Spark SQL, and Big Data ecosystems along with strong Data Modelling & Warehousing concepts, with a strong track record of designing and delivering high-performance data pipelines and analytical platforms. Adept at translating complex business requirements into scalable data architectures, with hands-on experience across the full data engineering life cycle — from ingestion and transformation to storage and consumption layers. Brings a strong blend of deep technical expertise and structured delivery through Agile methodology, effective both as an individual contributor and a collaborative team player in complex, fast-moving programs.

CORE COMPETENCIES

- Cloud / Big Data Architecture & Data Engineering
- Data Modelling & System Design
- PySpark & Spark SQL Development
- Data Warehousing & ETL Design
- Hadoop Ecosystem
- CI/CD & Job Scheduling
- Agile / Scrum Methodologies - SAFe

TECHNOLOGY

- Cloud Platform – Microsoft Azure (Databricks, ADLS Gen2, Azure Data Factory, Blob Storage, Delta Lake, Azure SQL Server)
- Big Data & Programming – Python, PySpark, Hadoop, Hive, Sqoop, Unix Shell Scripting
- RDBMS - SQL, Oracle
- DevOps & Scheduling – GitHub, Jenkins, Light Speed, GitHub Actions, Apache Airflow
- AI Exposure – GitHub Copilot, Devin

WORK EXPERIENCE

Associate Manger - Technology

Iris Software Pvt Limited, Noida | 2021 - Present

- Designed and deployed a scalable Lakehouse architecture on Azure Databricks, to build complex PySpark ETL pipelines handling data from various sources to calculate customer's risk score and generate fraud alerts for one of our banking clients.
- Built automated CI/CD deployment pipelines using Azure DevOps for seamless code promotion across Dev, Test, and Prod environments
- Managing Project for a Client with 20+ team size.

STRENGTHS

- Strong design and analytical skills
- Rapid adaptability to new technologies
- Stakeholder management
- Leadership in Agile environments

SKILLS

- Communication
- Teamwork
- Critical thinking
- Time management
- Leadership
- Adaptability

PROFESSIONAL DEVELOPMENTS

- **AML-Investigation Automation** using Agentic AI
- **Project Management Workshop** by Iris Software Private Limited

KEY DOMAINS

- Financial Services
- Healthcare Services
- Telecommunication

- Leading a scrum team to deliver work in iterations, responsible for the design, implementation and delivery of both functional and tech mandatory modules.

Solution Consultant / Tech Lead

Iris Software Pvt Limited, Noida | 2020 - 2021

- Led the Hive-to-PySpark migration for the project, defining migration strategy, prioritizing jobs by complexity and criticality, and establishing team coding standards.
- Analyzed source systems and process flows, contributing to AML End to End Recon Framework built on Talend, PySpark, and Hive.
- Designed and developed Hive queries for transactional and referential data loading across multiple regions.
- Build PySpark pipelines to flatten fact data, apply business rules, and detect anomalies for the validation team.
- Implemented end-to-end CI/CD onboarding using Bit Bucket, Jenkins, and RLM, and managed job scheduling through Autosys.

Sr. Developer / Business Analyst

Optum Global Solutions Pvt Ltd (UHG) | Aug 2013 – Jan 2020

- Delivered the Optum Data Lake (Data Fabric 2.0) migration, developing Talend jobs for multi-source ingestion using Talend Studio 6.3, Hive, HBase, Sqoop.
- Created Hive, Snapshot, ORC, and metadata tables, and built Sqoop-based procedures to move data from RDBMS sources into the Data Lake.
- On CCDI & ARO (2013–2016), gathered requirements and built ETL jobs in DataStage 11.3 to convert commercial and non-commercial client data into the standard Optum AFRS format.
- Developed Unix automation scripts, improving process stability and ensuring timely, quality data delivery to downstream consumers.

Software Engineer

IBM – Bharti Airtel | Mar 2011- July 2013

- Designed and maintained robust Oracle PL/SQL packages, stored procedures to process incoming wireless and wireline CDRs daily.
- Created complex SQL queries and reports to track call drop rates, billing anomalies, and usage trends.

EDUCATION

- **Bachelors of Technology (IT)**
  2004-2008
- **Senior Secondary School**
  2002-2004

PERSONAL INFO

DOB
21st June
Languages
English, Hindi
Marital Status
- Married
